--------------	----------

add_ro_desc	<i>Add rOpenSci review mention to DESCRIPTION (no longer recommended)</i>
-------------	---

Description

No longer recommended!

Usage

```
add_ro_desc(path = usethis::proj_get())
```

Arguments

path	path to package
------	-----------------

add_ro_fnd	<i>Add rOpenSci as funder to DESCRIPTION</i>
------------	--

Description

Add rOpenSci as funder to DESCRIPTION

Usage

```
add_ro_fnd(path = usethis::proj_get())
```

Arguments

path	path to package
------	-----------------

read_pkg_guide	<i>Browse packaging guidelines</i>
----------------	------------------------------------

Description

Browse packaging guidelines

Usage

```
read_pkg_guide()
```

repostatus_badges	<i>Names and Markdown code of repostatus.org badges</i>
-------------------	---

Description

Names, Markdown code, href and src of repostatus.org badges as retrieved from <https://github.com/jantman/repostatus.org/tree/master/badges/latest> before this package release. See also <http://www.repostatus.org/> The data is distributed with a CC-BY SA license. Refer to <http://www.repostatus.org/>

Format

A data.frame with columns status (lowercase) and md_code.

Source

<http://www.repostatus.org/>

use_cchecks_badge	<i>Use CRAN checks badge</i>
-------------------	------------------------------

Description

Use CRAN checks badge

Usage

```
use_cchecks_badge()
```

Value

It will help you add the CRAN checks badge to your README.

Examples

```
## Not run:  
use_cchecks_badge()  
  
## End(Not run)
```

use_docs_link	<i>Add rOpenSci docs URL to DESCRIPTION</i>
---------------	---

Description

Add rOpenSci docs URL to DESCRIPTION

Usage

```
use_docs_link()
```

use_repostatus_badge	<i>Use repostatus.org Badge</i>
----------------------	---------------------------------

Description

Use repostatus.org Badge

Usage

```
use_repostatus_badge(status)
```

Arguments

status current status of the project, cf details.

Details

Possible statuses are `rodev::repostatus_badges$status`,

- abandoned
- active
- concept
- inactive
- moved
- suspended
- unsupported
- wip

For more details refer to <https://www.repostatus.org>.

Value

It will help you add the repoststatus.org badge to your README.

Examples

```
## Not run:  
use_repoststatus_badge("wip")  
  
## End(Not run)
```

use_review_badge	<i>Use rOpenSci review badge</i>
------------------	----------------------------------

Description

Use rOpenSci review badge

Usage

```
use_review_badge(onboarding_issue_id)
```

Arguments

```
onboarding_issue_id  
Issue number of the onboarding thread of your package
```

Value

It will help you add the rOpenSci review badge to your README.

Examples

```
## Not run:  
use_review_badge(24)  
  
## End(Not run)
```

use_ro_footer	<i>Use rOpenSci footer</i>
---------------	----------------------------

Description

No longer recommended!

Usage

```
use_ro_footer()
```

use_ro_github	<i>Add collaboration files in .github</i>
---------------	---

Description

Add issue, PR templates and CONTRIBUTING.md file in .github

Usage

```
use_ro_github(  
  package_name = desc::desc_get_field("Package", file = usethis::proj_get())  
)
```

Arguments

package_name Package name
